Summary

Posted: Jul 19, 2023

Role Number:**200490894**

Apple is where individual imaginations gather together, committing to the values that lead to great work. Every new product we build, service we create, or Apple Store experience we deliver is the result of us making each other's ideas stronger. That happens because every one of us shares a belief that we can make something wonderful and share it with the world, changing lives for the better. It's the diversity of our people and their thinking that inspires the innovation that runs through everything we do. When we bring everybody in, we can do the best work of our lives. Here, you'll do more than join something - you'll add something. Apple Vision Pro is a revolutionary spatial computer that seamlessly blends digital content with your physical space. It will allow us to do the things we love in ways never before possible - all while staying connected to the people around us. The Vision Products Group (VPG) is looking for experienced engineers to help us build the next generation of Web technologies for our platform. This team is working with some of Apple's most advanced technologies including spatial computing, augmented reality (AR), machine learning (ML) and computer vision (CV). As a member of our organization you will assist us in defining and delivering new technologies for the spatial Web that will delight, inspire and empower millions of people!

Key Qualifications

Key Qualifications

- 5+ years of software development experience.
- Expertise in systems programming language, such as C/C++, Objective-C, Swift, etc.
Familiarity with front end web programming technologies such as HTML, CSS, and JavaScript.

Description

Description

Browsing the Web has always been an integral part of the user experience on Apple devices such as Mac, iPhone, and iPad. With the announcement of Apple Vision Pro, Apple is reimagining the Web browsing experience for spatial interfaces. In this role you will be working on the next generation of web technologies used in web pages viewed on spatial interfaces. You will have the opportunity to build upon emerging W3C standards in addition to prototyping completely new ideas. The ideal engineer for this role is comfortable exploring uncharted territory, building strong cross-functional relationships, has excellent verbal and written communication skills, and has experience in both prototyping and writing shippable, long-lived code within a large shared codebase.

Education & Experience

Education & Experience

BS / MS / PhD in Computer Science OR equivalent degree OR equivalent experience

Additional Requirements

Additional Requirements

- Familiarity with making open source contributions to WebKit.
- Familiarity with W3C standards.
- Experience using AR/VR interfaces.

Pay & Benefits

Pay & Benefits

- At Apple, base pay is one part of our total compensation package and is determined within a range. This provides the opportunity to progress as you grow and develop within a role. The base pay range for this role is between \$138,900.00 and \$256,500.00, and your base pay will depend on your skills, qualifications, experience, and location.

Apple employees also have the opportunity to become an Apple shareholder through participation in Apple's discretionary employee stock programs. Apple employees are eligible for discretionary restricted stock unit awards, and can purchase Apple stock at a discount if voluntarily participating in Apple's Employee Stock Purchase Plan. You'll also receive benefits including: Comprehensive medical and dental coverage, retirement benefits, a range of discounted products and free services, and for formal education related to advancing your career at Apple, reimbursement for certain educational expenses - including tuition. Additionally, this role might be eligible for discretionary bonuses or commission payments as well as relocation. Learn more about Apple Benefits.

Note: Apple benefit, compensation and employee stock programs are subject to eligibility requirements and other terms of the applicable plan or program.

Apple is an equal opportunity employer that is committed to inclusion and diversity. We take affirmative action to ensure equal opportunity for all applicants without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, Veteran status, or other legally protected characteristics.
